2026 Application Form - Waikato River Clean Up Trust

Application No. 00001-TEST From Morag McKenzie

Form Submitted 20 May 2026, 10:22AM NZST

Introduction and Eligibility

*** indicates a required field**

Introduction

Before completing this application form, you should have read the [WRA Funding Application Guidelines](#).

Incomplete applications and/or applications received after the closing date will not be considered.

This section of the application form is designed to help you, and us, understand if you are eligible for this grant. It is important that you complete these questions before any others to ensure you do not waste time applying for an unsuitable grant.

If you have any questions please contact us on 07 839 7966 during business hours or email projects@waikatoriver.org.nz and quote your submission number.

If you do contact us throughout the application process, please quote the application number below.

Application Number

00001-TEST

This field is read only.

The identification number or code for this submission.

Privacy Notice

All personal and organisational information collected as part of the application and assessment process will be managed in accordance with the Privacy Act 2020. Information will be used solely for the purposes of administering the grant, assessing applications, monitoring funded projects, and meeting public accountability requirements. Information will not be disclosed to third parties except as required by law or with applicant consent.

Confirmation of Eligibility

Before proceeding, please confirm the following:

- you have read and understood the WRA Funding Application Guidelines
- you are able to demonstrate alignment between your project and the aims of Waikato River Clean Up Trust
- your organisation is incorporated, or is auspiced by an incorporated organisation for the purposes of this application
- your project is located in the Waikato and/or Waipā River catchments
- your organisation is able to demonstrate financial viability and has a bank account in the entity name, and is able to issue invoices
- your entity is registered for GST where your project's total costs are \$60,000 or more in any year
- your organisation does not owe any reports or money to Waikato River Authority as a result of previous funding or grants
- your organisation has the appropriate type and level of insurance for the activities that are the subject of this grant

2026 Application Form - Waikato River Clean Up Trust

Application No. 00001-TEST From Morag McKenzie

Form Submitted 20 May 2026, 10:22AM NZST

You must confirm that all statements above are true and correct. *

☒ Yes

Project Details

* indicates a required field

Project Summary

Project Name *

Restoration Project

Project Address *

21 Rostrevor St
Hamilton Central Hamilton 3204 New Zealand

Latitude: -37.78138 | Longitude: 175.27941

Address Line 1, Suburb, Town/City, Postcode, and Country are required.

Project Primary Focus *

- ☒ Restoration and protection of the health and wellbeing of the river (environmental)
☐ Restoration and protection of people's relationship with the river (social, cultural, spiritual and economic)

Projects may focus on both health and wellbeing of the river and on people's relationship with the river. Please indicate the primary focus for your project.

WRA Catchment Location: *

- ☐ Area A - Lower Waikato
☐ Area B - Upper Waikato
☒ Area C - Waipā

Short project summary *

The project site is located in the high priority XXXX Stream Catchment, the property contains bush blocks, streams and a wetland.

Working collaboratively with Waikato Regional Council the project will focus on developing a wetland in a natural spring (puna) area to improve water quality by filtering discharge leaving the farm prior to entering the XXXX Stream. This project will also undertake riparian planting and result in stock exclusion from the wetland and land retirement.

Must be no more than 200 words.

Test Round updated Outcomes
2026 Application Form - Waikato River Clean Up Trust
Application No. 00001-TEST From Morag McKenzie
Form Submitted 20 May 2026, 10:22AM NZST

Please provide a brief, high level summary of the project. The WRA will use this on our website and for communication with stakeholders.

Land Tenure

Do you have landowner/s consent for this project? *

- ☒ Yes
☐ No
☐ N/A - desktop activity

Landowner Name *

Mrs Dolly Parton

Landowner Phone Number *

021 123 4567

Must be a New Zealand phone number.

Landowner Email *

DollyP@home.co.nz

Must be an email address.

Property Title Information *

Lot 2 DP 1234

Legal Description/identifier for the Deed of Funding - e.g. "Lot [Number] [Plan Type] [Number]" (e.g., Lot 2 DP 12345) or "Block Name 1A Block"

Is there more than one landowner? *

- ☐ Yes
☒ No

Evidence of project support e.g. letter/email from landowner/s *

Filename: FACTSHEET Trees for the future.pdf

File size: 2.6 MB

Project Purpose, Goals and Methods

What is the project purpose? Why is this project needed? NB: your project may have several reasons why it is needed, please provide details on all

What is the solution or methodology you are proposing to undertake in order to address the project need? (Should be SMART - specific, measurable, achievable and timely)

One line per issue e.g. e.g. The purpose of the project is to exclude stock from the stream and improve water quality.	e.g. 1,800m of 5 wire fencing installed to exclude stock and protect a 900m stretch of the stream. The fence will have at least a 5m setback.
To improve water quality in the XXX Stream Catchment	Riparian planting of 5,093 native plants at 1.5m spacings within the wetland area.

Test Round updated Outcomes

2026 Application Form - Waikato River Clean Up Trust

Application No. 00001-TEST From Morag McKenzie

Form Submitted 20 May 2026, 10:22AM NZST

Stock can currently access a wetland area trampling aquatic habitat, increasing erosion and sediment	5 wire fencing around the 1-hectare wetland to exclude stock.

Outcomes

Please tell us about the beneficial outcomes you expect to occur as a result of undertaking this project.

Generally, outcomes can be framed as an increase or decrease in one or more area.

For example:

Increase in knowledge or skills as a result of wananga or training; or

Decrease in streambank erosion from riparian planting.

Your Project Outcomes	Alignment with WRA Outcomes	How does your intended outcome link to our outcomes?
What changes do you expect will occur as a result of your project. One per row. Must be no more than 25 words.	Which of our outcomes will your project contribute to? One per row. No more than 1 choice may be selected.	Please explain how your intended outcome helps contribute to ours. Must be no more than 25 words.
Increased aquatic biodiversity and habitat for native and taonga species.	Ecological Integrity > Our kai have access to healthy habitats, protected from adverse effects due to adjacent land use, and which enhance our associated practices *	Planting 5,093 native plants will provide habitat and food for native species e.g. tuna will feed and shelter here
Stock will be excluded from the wetland area to improve water quality.	Ecological Integrity > Our kai have access to healthy habitats, protected from adverse effects due to adjacent land use, and which enhance our associated practices	Fencing will exclude stock from the wetland and ensure native species will be protected from adverse effects such as stock trampling and bank erosion.
Land will be retired to allow for the riparian planting	Ecological Integrity > Our kai have access to healthy habitats, protected from adverse effects due to adjacent land use, and which enhance our associated practices	Land retirement will protect the wetland from adverse effects of grazing and allow fencing and planting to occur.

Measurable outcomes

A metric is a measurement designed to indicate whether or not progress towards an outcome is occurring, and quantify the extent to which it is occurring. Here we would like you tell us which of our quantitative metrics you may be able to report on.

Test Round updated Outcomes

2026 Application Form - Waikato River Clean Up Trust

Application No. 00001-TEST From Morag McKenzie

Form Submitted 20 May 2026, 10:22AM NZST

Metric	Goal	How will you assess progress and know if you have achieved the outcome?
Which of our metrics (if any) will you track? You may be required to report on your progress. Add more rows if you want to list additional metrics. No more than 1 choice may be selected.	Identify a target for the metric you have chosen - an estimated total for your project. Must be a number.	Must be no more than 30 words.
Ecological Integrity > Our kai have access to healthy habitats, protected from adverse effects due to adjacent land use, and which enhance our associated practices > Number of non native plants planted *	5093	The plants will be planted and maintained. We will see healthy plants that attract native species.
Ecological Integrity > Our kai have access to healthy habitats, protected from adverse effects due to adjacent land use, and which enhance our associated practices > Length of waterway where stock are excluded	1000	The fence will prevent stock from accessing the wetland. This will native birds e.g bit-tern, to nest safely and prevent freshwater species (tuna) losing habitat due to stock trampling.
Ecological Integrity > Our kai have access to healthy habitats, protected from adverse effects due to adjacent land use, and which enhance our associated practices > Hectares of land restored/enhanced as part of the project	1	The area will be restored and enhanced once fencing and planting are completed.

Other outcomes

Please outline any other metrics you may capture as a result of this project.

We will undertake annual bird surveys to understand if the completed works have helped attract more wetland birds.

Te Ture Whaimana/Vision and Strategy

Please select up to 3 objectives which your project most contributes to and describe the ways in which it will do

Briefly describe how your project contributes to the selected Vision & Strategy Objective?

Test Round updated Outcomes

2026 Application Form - Waikato River Clean Up Trust

Application No. 00001-TEST From Morag McKenzie

Form Submitted 20 May 2026, 10:22AM NZST

this. Select only those objectives that are directly relevant to your project.

h. The recognition that the Waikato River is degraded and should not be required to absorb further degradation as a result of human activities. *	The project will minimise sediment entering the XXXX Stream thus supporting water quality of the river
e. The integrated, holistic and coordinated approach to management of the natural, physical, cultural and historic resources of the Waikato River.	Creating and enhancing wetland habitat supports habitat for native species, particularly tuna.
a. The restoration and protection of the health and wellbeing of the Waikato River.	This area is a puna (spring) that will benefit from stock exclusion. The wider protection of the whole hectare area is part of the cumulative effort catchment wide to support the V&S.

Waikato and Waipā River Restoration Strategy Alignment

Please refer to <https://www.restorationstrategy.nz/priority-projects/> for a list of priority locations and projects. Hint click on 'Priority Projects', scroll down to your project location, click on the 'Project Assessment Form' (PAF), locate the project/part of project that you are applying for.

PAF Reference	PAF Name	Description of how this project meets/supports the relevant PAF
WP 6	Enhancement of Waipa Wetlands in priority nutrient catchments.	This PAF has 2 main priorities. The first of which is Wetland and ephemeral stream protection. By fencing and planting this wetland the project will be supporting the delivery of this PAF.
e.g. CLW 1	Water quality improvement in the Aka Aka Catchment.	1,800m of fencing will prevent stock access to the wetland area. This will prevent destruction of wetland vegetation and contribute to the improvement of water quality.

Iwi Environmental Plan Alignment

Projects may or may not be aligned with iwi environmental plans. You can check if your project is aligned here:

[Tūwharetoa Māori Trust Board](#)

Test Round updated Outcomes

Form Submitted 20 May 2026, 10:22AM NZST

[Te Arawa River Iwi Trust](#)
[Raukawa Charitable Trust](#)
[Waikato-Tainui](#)
[Te Nehenehenui Trust \(Maniapoto\)](#)

Please select which iwi environmental plan your project is aligned with.

How is your project aligned with the relevant iwi environmental plan?

Te Nehenehenui Trust (Maniapoto) *	Principle three: Te Mana o Te Waipa Section 14.1.10 - restoration aims to enhance and protect the mauri of the Waipa River. As the XXXX Stream is a tributary to the Waipa River, by protecting our wetland we are reducing sediment flows into the XXXX stream and supporting this principle.
---------------------------------------	--

Other Priorities

Has the site or project been identified as a priority through any other prioritisation process? *

- ☐ Yes
☒ No

Consultation with iwi and Local Council

There is an expectation that consultation will be undertaken with iwi and with Local Council. The relevant iwi authority will be able to provide you with an appropriate local contact for your project.

Contacts for the five-river iwi are:

Tūwharetoa Māori Trust Board Tūrangi 07 386 8832 Email: info@tuwharetoa.co.nz

Project Planning, Collaboration, Delivery and Transition

*** indicates a required field**

All successful applicants will be subject to the terms and conditions of the Trust's Deed of Funding, which represents the funding contract between the Authority and the Recipient. The Deed of Funding must include a detailed project plan.

Please provide as much detail as possible on the deliverables, key tasks and project budget. You can use the [project plan](#) and [budget planning](#) templates from our website to assist you.

Project work schedule and costings

In this section, please provide a detailed breakdown of all works required including detailed costings.

Please ensure that these works achieve or exceed the WRA minimum standards for fencing & planting.

Please refer to section 2.7 of the [WRA Funding Strategy](#) for any funding exclusions.

Over which calendar years are you applying for funding? *

- ☒ 2027
☒ 2028
☒ 2029
☐ 2030
☐ 2031

A calendar year runs from 1st January to 31st December

How to complete annual table/s below

Activity: discrete pieces of work that will be itemised on your invoice/s to WRA.

Deliverable: the activity, locations and standards for the work (where relevant).

Quantity (Qty): how many you need for this activity i.e. how many metres of fencing

Unit cost: cost per unit i.e. per metre, per plant, per attendee

Total cost: Calculate Qty x Unit Cost

WRA funding: the dollar amount to be funded by the WRA to undertake the activity

Cash co-funding: the dollar amount to be funded by another organisation/s to undertake the activity

In-kind: the dollar value of individuals time, venue hire etc donated to undertake the activity.

Project Budget Totals

Total Project Cost	Total Amount Requested (WRA)	Total Cash co-funding	Total in-kind funding
\$54,440.70	\$26,023.50	\$18,307.60	\$10,109.60
This is the sum of project expenditure across all years of your project	This is the sum of WRA funding all years of your project.	This is the sum of Cash co-funding for all years of your project	This is the sum of all in-kind funding across all years of your project

Project Partners and Contributions

Finding Source	Funding Type	Funding Amount	Project tasks to be funded	Funding Confirmed?	Date confirmed or to be confirmed
Waikato Regional Council	Cash contribution *	\$18,307.60	Fencing, planting	Yes *	01/05/2026
Landowner	In-kind contribution	\$10,109.60	planting and releasing	Yes	01/05/2026
E.g. Waikato Regional Council			E.g. Fencing - \$10k Plants - \$35k		

Long Term Maintenance and Transition

For each of the activities identified above please describe how the project will be transitioned away from WRA funding, become self-sufficient and how long-term maintenance will be managed to ensure the investment is protected.

Activity	Long term maintenance/transition plan
Fencing	The landowner will be responsible for inspections of the fence and any repairs once it is built.
Restoration Planting	The plants will be released twice per year for two years. Following that it will be the responsibility of the landowner to manage weeds and undertake pest control if required.

2026 Application Form - Waikato River Clean Up Trust

Application No. 00001-TEST From Morag McKenzie

Form Submitted 20 May 2026, 10:22AM NZST

Please describe any experience you have in delivering similar projects

Mainly fencing and some minor planting of waterways on my farm. I successfully delivered WRA 25-999 on our farm too.

Health and Safety

*** indicates a required field**

Health and Safety

I/we understand our Health and Safety obligations in relation to the work for which funding is sought and have considered these in connection with the methods, materials, personnel, time-frames and costs proposed. *
